

MOONBUGGY MOST IMPROVED AWARD 2010 NASA Marshall Great Moonbuggy Race

The purpose of this award is to recognize the high school and college team that has the most improved time over that of the previous year. A plaque and a check for \$250 will be given to the high school and college team that has the greatest percent decrease in their final time over their last's year's best final time (including assembly time and penalty points). Teams that do not finish, i.e., do not post a time for the preceding year, are not eligible for this award. No submission information is required for this award.

More information about NASA's Great Moonbuggy Race can be found at
